

Your Wave of Technology

Consulting Services

Cost-effective and timely Episys® programming

CUTEK is a full service credit union consulting company dedicated to the Symitar™ client base. Each member of our staff has more than a decade of Symitar Episys® experience, from RepGen programming to product development to operations streamlining. This experience stems from our time working at Symitar helping its vast credit union clientele enhancing various aspects of their Episys systems. Now we can provide you with the same experienced service at a more cost-effective rate in a more timely manner.

With a combination of on-site and off-site support, we can help you through any challenging technology situation:

- Short term to long term
- System migration
- Mergers
 - Timely and efficient process
 - Advanced checks and balances in place
 - Superior expertise and experience
 - Emphasis on data verification and balancing
- Credit card conversions
