Nova Membership Application

90% of the Features at 50% of the Cost

Convenience, flexibility, and innovation through powerful automation, this application and its vast capabilities allow new members to easily join your credit union 24/7 in only a few clicks. It is truly cost effective, having 90% of today's generic membership application features at 50% of the cost.

Nova Membership App leverages the tasks that Symitar does well, such as:

- data storage
- data security
- other tasks
- data mining
- report generator access

Customized

The look and feel of the new online membership application can be fully customized. Third party interfaces for services like EFunds for fraud detection complete the package.

Integration

CUTEK's software platform, integrated with a SQL Server database, allows you to deploy highly customizable Internet applications – like Nova Membership App.
